

**Remarks:**

The preliminary amendment is being filed in an effort to present an application in proper U.S. format and to present claims in proper U.S. claim idiom for examination. Page 12 has been amended to change reference numerals 61-64 to 41-44. Support for the change can be found by referring to Fig. 1, for example, which shows terminal pins 41-43.

The newly entered claims are fully supported in the original claims and in the claims of the German priority application.

An early action on the merits of the claims is requested.

Respectfully submitted,

Mark P. Weichselbaum
